

2001 - Reggie Naik and Family

Australia/South Africa

*"As "Vision" states " moving forward " my son Diven Naik was introduced to Taekwon-do and trained by one of the greatest masters of all time " in my opinion".*

*"A truly remarkable figure with the utmost respect for his students thus earning such loyalty and respect in return. Master Tan was entrusted with my son Diven who guided him and trained him to be a Taekwon-do black belt at a tender age of 9 whilst attending ISKL in Melawati campus."*

*"At that stage Diven became one of the youngest children to achieve his black belt at that school. Today living in Melbourne Australia after a 4 year stint in Malaysia my son has become a respectable young individual who understands discipline."*

*"I would like to pay tribute to a living legend " Master Tan", and thank him for all that he and Vision Taekwon-do has done for Diven. A big thank you to the Tan family who is contributing positively to society and the children of the future..."*
